Technology Transfer and Innovation

Events in technology transfer and innovation field

Enterprise Europe Network carries out a variety of events to promote their activities to companies and organisations at regional, national or European level. The events provide you the opportunity to meet potential cooperation partners during pre-arranged face-to-face meetings, to present your business or technology offers.

Do you have technology profiles in the fields? Please contact office@ipacv.ro to support you.

March 2013

Brokerage Event, for projects on Hydrogen & Fuel Cells addressing FCH JU Call for Proposals 2013, 12 March 2013, Campus of "Politechnica" University of Bucharest

The Fuel Cells & Hydrogen Joint Undertaking (FCH JU) is a public private partnership supporting research, technological development & demonstration (RTD) activities in fuel cell & H₂ energy technologies in Europe. Its aim is to accelerate the market introduction of these technologies, realising their potential as an instrument in achieving a carbon-lean energy system. On January 15th, it has been launched the *FCH-JU-2013 Call* with deadline May 22nd. In order to promote the participation of scientific research and innovative community we organize this **Brokerage Event**. The aim of the event is to create partnerships, to increase the chances for funding and to transfer useful knowledge to the proposers.

Workshop Exchange of best practice on implementation of innovation management within security organizations in Europe, 13 March 2013, Oslo, Norway

This event is organized in framework of the INSEC project www.insec-project.eu , co-financing by the EC / DG Research and Innovation and during the event Sectech Norway, 12-13 March <http://www.sectech.nu/no/en/index.asp>. The workshop will focus on exchange of best practices, promotion of best practices and are organised as an interactive event giving participants the opportunity for discussion and exchange of experience.

The INSEC project is striving to improve the Innovation & Research processes within security organisations, enabling to evaluate novel approaches, services, new technologies dedicated to the safety of citizens. The project focus on 2 areas:

- Development of a new internal innovation management model which will allow security organisations to better manage both the financial impacts and the added value of innovation projects.
- Development of an external innovation platform to promote networking between European security SMEs and public/private security organisations. This will increase the visibility of SMEs to the security organisations and hence diversify the range of services and technologies available to them.

The exhibition and the seminars are focused entirely on security technologies.

Green Industry Innovation Programme, launching Conference, Bucharest, Romania, 12 March 2013

The overall objectives of the Norwegian Financial Mechanism (Norway Grants) are to contribute to the reduction of economic and social disparities in the European Economic Area (EEA) and to strengthen the bilateral relations between Norway and the Beneficiary States.

Green Industry Innovation is one of the programme areas under the Norway Grants assistance for the financial period 2009-2014. Total contribution from Norway is close to EUR 100 mill. This programme area is focusing on business development. Private sector is the primary target group. The overall objective of the Green Industry Innovation programme area is to increase the competitiveness of green enterprises, including greening of existing industries, green innovation and green entrepreneurship.

For applicants from the Beneficiary States and Norwegian partners please follow the links of the respective Programme Operators: [Estonia: Ministry of Economic Affairs and Communications](#), [Hungary: Szent István University](#), [Latvia: Ministry of Economics of the Republic of Latvia](#), [Lithuania: Ministry of Economy of the Republic of Lithuania](#), [Slovakia: Government Office of the Slovak Republic](#)

Ideal-ist Proposal Check Event for Call FP7-ICT-2013-11, 11-12 March 2013, Budapest, Hungary

Ideal-ist is offering an event for assuring and improving the quality of project proposals. The aim of this **Proposal Check Event for FP7 ICT Call 11** (call deadline:16 April 2013) is to increase the chances for funding, to transfer useful knowledge to the proposers. Projects which reinforce the cooperation across the enlarged EU, strengthen the integration of the EU research area in ICT are of special interest.

Interested proposers present their almost finished proposals for FP7 ICT call 11 and receive qualified feedback by at least two evaluators immediately during the session. A dedicated counselling session consists of the evaluators reading the proposal, the proposers shortly presenting their project, an ensuing feedback round. To ensure confidentiality, all participating experts will have signed respective declarations. There will be the possibility for receiving additional consulting by experienced NCP staff and for gaining information about the typical FP7 evaluation process.

Clusters

Towards European Strategic Cluster Partnerships: Call for Expression of Interest

EU Cluster Collaboration Platform: Call for expression of interest for cluster, network organisations interested in intensifying cluster/network collaboration across sectoral boundaries leading to "EU Strategic Cluster Partnerships".

This call for the expression of interest is a first step to initiate the process of closer crosssectoral collaboration across borders. It aims to encourage clusters, network organisations to move from networking, loose contacts to developing and implementing joint strategies in new areas towards third countries. These partnerships shall:

1. Contribute to the emergence of new value chains that bring together in an innovative way companies from different sectors
2. Better support SMEs in global competition.
3. Offer innovative solutions to better address societal challenges, global warming, resource efficiency.

The selected partnerships of cluster and network organisations will benefit from preferential services provided by the European Cluster Collaboration Platform and specifically recognised by other EU initiatives promoting international cluster cooperation. **Deadline** for submission of expression of interest: **8 March, 2013**.

More... [Call for EOI - Towards European Strategic Cluster Partnerships](#).

ACQUEAU - EUREKA cluster - Call 2013-2014

The EUREKA cluster for growth and innovation in water Acqueau will accept an outline proposal submission at any time and on any research innovation topic within the context of the water cycle.

More... <http://www.acqueau.eu/node/157>

Cluster agenda for 2013

In addition to the [TCI activities](#) - some other cluster and competitiveness related activities taking place in 2013:

- Final Conference of Clusters, Prague, Czech Republic, 6th February 2013 <http://www.clusterscord.eu/>
- CNCB Final Conference, Venice, Italy, 13th February 2013 <http://www.cncb.eu/newsEvents.asp>
- Iceland Geothermal Conference, Reykjavik, Iceland, 5-8 March 2013 <http://www.geothermalconference.is/>
- Cluster to cluster meetings, Athens, Greece, 11-12 March 2013 <https://www.clustercollaboration.eu/>
- Nationella klusterkonferensen 2013, Borlänge, Sweden, 13-14 March 2013 <http://klusterkonferensen.se/>
- Clusters as drivers of competitiveness, Fribourg, Switzerland, 26 March 2013 <http://www.pst-fr.ch/cluster2013>
- Cluster-to-Cluster Conference, Copenhagen, Denmark, 9-10 April 2013 <http://www.cluster-to-cluster.dk/>
- 3rd InnoMed-2013 International Forum, Penza, Russia, 18-19 April 2013 <http://inno-med.ru/>
- Cluster Academy 2013 - Linz, Austria, 14-17 May 2013 <http://www.clusterland.at/>
- WIRE IV Conference - Cork, Ireland, 5-7 June 2013 <http://www.clusterobservatory.eu/>
- TCI Global Conference - Kolding, Denmark, 3-6 September 2013 www.tci2013.com
- Balkan Conference: Days of Clusters, Sofia, Bulgaria, October 31 - November 1, 2013 <http://www.clusterhouse.rs>.

TCI is the leading global network for practitioners, policy makers, researchers and business leaders working towards improving competitiveness in regions and clusters. TCI is a non-profit, non-governmental organization, with a global scope, open to members from all countries throughout the private, public and voluntary sector.

Workshop oral proceedings, EPO, Munich, 8-9 April 2013

A workshop for professional representatives seeking to improve their practical experience of oral proceedings will be held. Apart from gaining an overview of opposition proceedings before the EPO and the related case law, participants will have the opportunity to take

part in mock oral proceedings. The registration deadline is 18 March

More... <http://www.epo.org/learning-events/events/search/oral-proceedings.html>

Research

Horizon 2020: budget 71 billion Eur, Period: 2014-2020

Horizon 2020 will be an integrated programme that will cover all research & innovation funding currently provided through the Framework Programme for Research & Technological Development, the Competitiveness & Innovation Framework Programme (CIP), the European Institute of Innovation & Technology (EIT). The different types of funding provided by the existing programmes will be brought together into a single coherent, flexible framework. It will provide funding for every stage of the innovation process from basic research to market uptake. Horizon 2020 is the financial instrument implementing the Innovation Union.

Of the total EU budget of €908 billion, €125 billion is dedicated to section 1a, on growth & competitiveness. Just under €71 billion of this sum is allocated to the Horizon 2020 programme. This represents a net increase on the €55 billion of its predecessor, the FP7. But it is still well short of the EC's proposed budget for the programme of €80 billion.

The €71 billion total does not include the €12.8 billion allocated to the 3 major infrastructure projects of the global positioning system Galileo, the ITER fusion project, the earth observation system Copernicus. These funds – €6.3 billion for Galileo, €2.7 billion for ITER, € 3.8 billion for Copernicus – fall outside the Horizon 2020 budget.

More... [Commission Proposal H2020, The rules of participation in Horizon 2020 \(press release\)](#), [Presentation on H2020](#), http://ec.europa.eu/research/horizon2020/index_en.cfm, <http://www.eutrainingsite.com/2014-2020.php?id=106#euf>

Brochure on Communicating EU Research & Innovation; A guide for project participants

Its objective is to offer a tool for the FP7 project participants, to better communicate about their projects/achieved results. With a little creativity, strategic communication efforts by the projects themselves can help to show how EU collaboration has achieved more than would have been otherwise possible, how the projects outcomes are relevant to everyday lives. It can help to publicise the project's work in such a way that the projects themselves will benefit: through new (business) opportunities, a larger network, increased awareness about their work.

This short guide gives some examples of successful communication activities, as well as an elaborate checklist to help the projects to develop a sound strategy for communicating about their work. It informs the projects about legal requirements, expectations starting at the negotiation phase right up to the end of the project.

More... [Communicating EU Research & Innovation – A guide for project participants](#)

2013 State of The Smart Grid: How Far Have We Come? [INFOGRAPHIC]

As illustrated in the new INFOgraphic from PennEnergy Research and Zpryme, *2013 State of the Smart Grid: How Far Have We Come?*, a survey of 104 global utility professionals reveals that six out of 10 executives rated increased meter reading accuracy as the top justification for selecting an advanced metering (AMI) system, while one out of four indicated that they have already invested heavily in making the grid's infrastructure more intelligent.

Global Hydro Report

This report looks at the global hydro market, the changes, developments, forecasts for the future. Technologies with a lower environmental impact such as run-of-river, small hydro, low head turbines are proving to be extremely popular to both appease critics of hydro, meet energy needs.

In the USA, has been an increase in pumped storage projects as a standalone option, retrofitted on to existing hydro power assets. This is the most mature technology to store electricity generated from intermittent renewables such as wind & solar, then release it to meet peak demand. There is considerable growth expected in new hydro capacity.

More... <http://ogjresearch.stores.yahoo.net/global-hydro-report.html>

Innovation and Entrepreneurship

Regional Innovation report – Attiki, Greece

The region of Attiki, where the capital city of Athens is located, is economically the most important region of Greece, accounting, in 2009, for 43.3% of the country's total GDP and housing 35.8% of the population, despite the fact that it accounts for only 3% of the national territory. The significant gap in innovation indicators to the EU average is partly the outcome of limited demand from the industry, reflecting the low-to-medium technology structure (based on R&D intensities) and low level of openness of the economy and the regional specialisation in services.

Romanian National R&D Institute for Chemistry & Petrochemistry searches SME's for Collaborative projects

[The National Research&Development Institute for Chemistry and Petrochemistry – ICECHIM](#), Bucharest, is interested in creating and development of partnerships with SME's for projects under "Partnership's" Programme, "Collaborative Projects for Applied Research" subprogramme which launches in 2013. The Programme aims to increase the competitiveness of research and development by developing solutions to problems of socio-economic interest, embodied in technologies, innovative products, services, developed in partnership between research organizations-enterprises (the maximum value for the project is 1 Million Euro of which at least 15% is private financial contribution). Areas of interest:

- Bioresources
- Polymer synthesis,
- Agrochemical products
- Biotechnology
- Polymer modification, elastomer
- Chemical & Petrochemical Technology

8th Call for proposals

There are just a few weeks left to submit EoT in response to IMI's [8th Call for proposals](#). Topics:

Topics under the IMI programme 'Combating Antibiotic Resistance: New Drugs for Bad Bugs (ND4BB)'

- Topic 1C: Innovative Trial Design & Clinical Development (work package 6 of Topic 1)
- Topic 3: Discovery and development of new drugs combating Gram – negative infections

Topics under the Theme 'Developing an aetiology-based taxonomy for human diseases'

- Topic A: Approaches to develop a new classification for Systemic Lupus Erythematosus, related connective tissue disorders, Rheumatoid Arthritis
- Topic B: Approaches to develop a new classification for neurodegenerative disorders with a focus on Alzheimer's disease, Parkinson's disease

Experts for Horizon 2020 Advisory Groups: Call for expressions of interest

The EC is widening its search for experts from all fields to participate in shaping the agenda of Horizon 2020, the EU's future funding programme for research and innovation. The experts of the advisory groups will provide high quality and timely advice for the preparation of the Horizon 2020 calls for project proposals. Deadline: 6 March 2013.

Policy

Mobilising EU Capital Cities: Commissioner urges Mayors to lead Europe out of crisis

Commissioner for Regional Policy Johannes Hahn hosted the 1st direct talks between the EC and the EU's capital cities. 20 mayors from capital cities met Commissioners Neelie Kroes for Digital Agenda and Janez Potocnik for Environment to discuss how they can drive forward the EU's growth agenda Europe 2020, help EU exit the crisis.

In the light of current discussions for the next EU 7-year budget, reforms to EU Regional Policy and other EU programmes, there is a need to address urban challenges in an integrated, more effective way. The reformed Regional Policy makes the case for this kind of integrated approach. This is why the recently renamed Directorate for Regional & Urban Policy has been given a new role to co-ordinate the urban policy initiatives of the EU.

EU Nuclear Energy Policy Developments 2013

In 2013, safety will remain at the top of the EU's nuclear energy policy agenda. Member States will have to continue implementing the recommendations of the safety reassessment process carried out following the Fukushima accident. The EC plans to revise the 2009 Safety Directive. Other developments are in the pipeline like the publication of a Proposal on nuclear insurance and liability and the adoption of Horizon 2020.

Events

17th International Conference on System Theory, Control & Computing, ICSTCC, 11-13 Oct 2013, Sinaia, Romania

The main goal of the conference is to provide a multidisciplinary forum between researchers from industry, academia to discuss state-of-the-art topics in system theory, control & computing, to present recent research results, prospects for development in this evolving area. The ICSTCC conference, is technically co-sponsored by IEEE Control Systems Society, the papers will be indexed in IEEE Xplore.

International Workshop on Intelligent Robots – iR'2013 within 7th International Symposium on Intelligent Distributed Computing - IDC'2013, September 4-6, 2013, Prague, Czech Republic

The aim of this workshop is to contribute to better research results in using artificial techniques and distributed computing technologies for robotics systems, applications. The symposium welcomes submissions of original papers on all aspects

of robots, intelligent distributed computing ranging, concepts/theoretical developments, advanced technologies/innovative applications. Full paper submission: March 8, 2013

Genomica: 1st Conference International Rare Diseases Research Consortium, 16-17 April 2013, Dublin, Ireland

The event is organised by the EC under the auspices of the Irish Presidency of the EU. The aim of the conference is to gather stakeholders active in the rare disease area across the globe working towards the IRDiRC goals: 200 new therapies for rare diseases, means to diagnose most rare diseases by the year 2020. In addition to a top-level programme taking stock of advances towards IRDiRC goals, the conference will provide ample opportunities to network with the international rare disease community.

Genomica: IMI Stakeholder Forum 2013, Brussels, Belgium, 13 May 2013.

The **brain** will be the focus of **IMI's Stakeholder Forum 2013**. Brain disorders affect **1 in 3 Europeans** and cost the economy **€798 billion** every year. There are few effective treatments in this area and developing new drugs to treat brain disorders takes longer and costs more than for other diseases. The Stakeholder Forum focus on how IMI projects are tackling these challenges at all levels by enhancing our understanding of brain disorders, developing new tools to improve drug development in this area, improving clinical trial design. EC has declared **May 2013** the **Month of the Brain**. The event will also include an **update on IMI's Calls for proposals** and **future plans**.

More information on the event will be released in the coming weeks on [Twitter](#) or join our [LinkedIn group](#)

International Conference «Nanotechnology and nanomaterials», Bukovel, Ukraine, August 25-September 1, 2013

The conference will bring together leading scientists, researchers from different countries of the world. Thematic priorities:

- Nanoobjects microscopy
- Nanocomposites and nanomaterials
- Nanostructured surfaces
- Nanooptics and nanophotonics
- Nanoplasmonics & surface enhanced spectroscopy
- Nanobiotechnology

The conference focuses on the latest advances in nanosciences and nanotechnologies and promotes profound scientific discussions between scientists and researchers from different disciplines and countries.

8th International Conference on Additive Manufacturing & 3D Printing, 9-10 July 2013, Nottingham, UK

The conference is now established as one of the world's leading knowledge transfer, networking events focused solely on the production of end-use components using additive 'layer-based' technologies. The event is regularly attended by over 200 delegates from around the world, representing some of the world's most innovative companies/brands.

Workshop "Sustainable urban dynamics", in preparation of the Horizon 2020, Rome, Italy, 28 March 2013

The aim is to identify **potential research subjects** to be covered under the item: "The promotion of sustainable/inclusive environments through innovative spatial and urban planning and design" (cf. point 6.1.5 at p. 147 of the Council partial general approach - <http://register.consilium.europa.eu/pdf/en/12/st17/st17633.en12.pdf>). This item is part of the Horizon 2020 Challenge 6 Inclusive Societies largely dedicated to social sciences and humanities. Please send your name, surname, organisation, department, phone and email to Ms. Natalia Morazzo (morazzo@apre.it) before **12 March** 2013.

4th Workshop Effective solutions for green urban transport, Learning from CIVITAS cities, Geneva 16 April 2013

The one-day workshop is hosted in the margins of the 7th European Sustainable Cities and Towns Conference, which runs from 17-19 April 2013. The event will specifically focus on two thematic building blocks of CIVITAS, namely:

- Less car-dependent lifestyles (e.g. car-pooling/ sharing, public bicycles and bicycle sharing);
- Mobility management - mobility planning, marketing&communication, stakeholder consultation, public participation

Transport and Energy Management Conference, 10 April 2013, CEN-CENELEC Management Centre, Brussels

The conference is designed for companies, experts interested in new technologies, supply chain, logistics, transport best practices, evaluation, management process. The aim is to present the activities and to create an exchange of views with stakeholders - industry, EC, environmental NGOs in order to identify possible needs for further standardization.

21st European Biomass Conference & Exhibition, Copenhagen, Denmark, 03-07 June 2013

For 30 years now the EU Biomass Conference & Exhibition has been the place to address and discuss the fundamental challenges of the bioenergy industry, to illustrate the best innovative technological solutions available to overcome them.

The Conference will discuss major issues for the biomass markets, in technical/business areas, from resource assessment to market, policy developments, drawing on leading experiences from all over Europe and worldwide. The subjects of the 21st EU BC&E result from the experiences of the previous successful EU BC&E conferences.

5th International Congress of sport and kinetotherapy with exhibition, April 5-7, 2013, Caciulata, Romania

At the Congress there will be three presentation modalities: *Oral and poster presentations (in-person) and virtual (for those who cannot attend in person) or recorded video summary is sent by e-mail.* Papers will be published in special issue of appearance in the *STUDIA EDUCATIO ARTIS GYMNASITICAE*. The Journal is indexed in IDB.

New Horizons for 2020 & Beyond; Croatia and South East Europe in the EU, May 22-24, 2013, Dubrovnik, Croatia

At <http://www.earto.eu/activities-and-services/annual-conference.html> you can find presentations from the previous conferences. 2013 is also the year when the current EU Framework Programme FP7 reaches the end of its 7th year term, to be followed by Horizon 2020. The major changes mark the conference programme, which will have a triple focus.

- Horizon 2020: How it will differ from FP7 in its objectives, its instruments, and its operational practice.
- Structural Funds: How EU Structural Funds can be effectively deployed to support research and innovation, not only but also in Croatia and south-eastern Europe, as well as in complement to Horizon 2020 funds
- Meeting Place: A forum where research organisations can meet, begin building relationships.

Contact: Dubravko Kelenc - Brodarski institut, Zagreb, Croatia dubravko.kelenc@hrbi.hr

21st International Conference on Composites/Nano Engineering (ICCE-21), Tenerife, Spain, July 21-27, 2013

The conference aims to solve or partially solve critical issues and balance the three pillars of Composites/Nano engineering: Mechanics, Manufacturing and Materials, in all length-scales.

The ICCE emphasizes the "D.I.M." approaches to science/engineering (namely, durability approach to structures, interdisciplinary approach to science, multifunctional approach to materials).

Training on „Introduction to the IMP³rove Approach“, March 14-15, 2013, Berlin, Germany

Demand for better Innovation Management support for SMEs is continuously rising. With the IMP³rove Assessment – the European Approach to Innovation Management – you will gain insights into an effective approach to Innovation Management support for SMEs. This is an excellent opportunity to gain access to international benchmarks on Innovation Management and to an international network of professional IMP³rove Consultants.

For registration for the IMP³rove training please send an email to: improvecoreteam@atkearney.com.

Seminar Financing R&D Projects avoid indirect State Aid, implement full costing correctly, 8-9 April 2013, Berlin

- Avoid the risk of unlawful State aid in technology transfer
- In a workshop, learn how to distinguish between economic and non-economic activities
- Implement full costing correctly and be sure to meet EC's requirements
- Prepare for "Horizon 2020" and manage financial audits successfully

More... detailed information [here](#). For direct registration please use the [online booking form](#).
