Technology Transfer and Innovation

Events in technology transfer and innovation field

Enterprise Europe Network carries out a variety of events to promote their activities to companies and organisations at regional, national or European level. The events provide you the opportunity to meet potential cooperation partners during pre-arranged face-to-face meetings, to present your business or technology offers.

Do you have technology profiles in the fields? Please contact office@ipacv.ro to support you.

Clusters

The Call on cluster excellence, Deadline 18 June 2013

The objective of this Call for proposals is to pursue the EU efforts aimed at strengthening cluster management excellence in the EU by further using the results, tools developed by the European Cluster Excellence Initiative (ECEI), building upon the experience/lessons learned from the 2011 Call for proposals and the current projects working on cluster excellence. Eligible members of the consortium shall be regional or national public authorities or agencies financing and/or managing cluster programmes in their territory. Each consortium should be composed of partners from at least 3 different CIP participating countries. Maximum 4 projects will be funded. Total budget € 1 377 000. The action will support:

- Training activities addressed to all project partners on how to use the benchmarking tool provided by the EU Secretariat for Cluster Analysis (ESCA) for assessing the performance of the management of cluster organisations;
- Training activities addressed to all project partners on how to assist cluster managers to improve their management skills, provide high quality services to their cluster members, by using the training materials provided by the EU Foundation for Cluster Excellence (EFCE);
- Activities to support the efforts of cluster organisations, which have already acquired the bronze label of excellence, to move to the next level of excellence and acquire the gold level.

Research

Higher priority to communication/dissemination in Horizon 2020

Communication/impact is moving up one step in Horizon 2020, so far this is the evaluation model, weighted equally: 1. Scientific & technological excellence 2. Impact (communication/dissemination) 3. Implementation (management, etc.) The aim is to create the best possible breeding ground for the exchange of facts, ideas, statements. Using professional communication concepts will help businesses, organisations and R&D groups to achieve their goals.

Maximising the use of research infrastructures in Europe; An on-line map to locate the facilities

This action has been instrumental in enhancing EU researchers' access to the infrastructures they require to conduct their research, irrespective of the location of the facility. It is now possible to see on an on-line map the location of about **800 research infrastructures** that open their doors to all researchers in EU. This map shows the location of the research infrastructures funded under the FP7 **that provide transnational access to researchers**. The facilities are located in **42 countries**. They cover **a large range of scientific fields** and are very diverse: from biobanks, marine stations, research aircrafts, to databanks, supercomputers and large-scale installations such as telescopes and synchrotrons facilities.

Innovation and Entrepreneurship

IMP³rove - European Innovation Management Academy – where a company stands in terms of its competitiveness, sustainable growth and Innovation Management

IMP³rove - European Innovation Management Academy – based in Duesseldorf, Germany - offers an approach with an integrated online assessment to quickly and confidentially determine where a company stands in terms of its competitiveness, sustainable growth and Innovation Management. The IMP³rove Assessment provides the answers to the following questions: Does the company's innovation strategy, organisation, culture, life cycle management or enabling factors facilitate the innovation? Which areas should be reviewed? What are the company's strengths and weaknesses?

The IMP³rove Assessment effectively analyses all these aspects. The IMP³rove Innovation Management consulting approach and tools developed by IMP³rove are holistic, integrated and based on the experience of almost 3000 SMEs.

Innovation is like a rainbow

The rainbow never touches the ground, there is no end to it, it sort of dissipates and that also sounds just like innovation, we often lose the focus or the original intent in the final product. Innovation, as we know, is made up of a lot of activities, a rainbow of different often colourful activities, that need to be combined together for the end result but they do need the right conditions to produce this. To gain from "this rainbow effect" of lots of ideas, like the rainbow you need to narrow the funnel of precipitation to get a desired result. Sounds a little like a narrowing innovation funnel or staying very focused.

Call for experts on university-industry relationships (interviews, Delphi study)

At the University Industry Innovation Network (UIIN) we are currently conducting a research project which aims to further explore and better understand the key challenges and identify possible solutions in university-industry collaborations. The project will investigate both sides, namely university academics, professionals from business working with academia. Having finished an extensive review of literature/case studies, in the next phase of the project we will conduct 12 interviews (6 with university, 6 with business representatives). Following this we will conduct a Delphi study aiming to reach consensus on the main challenges, ways to move forward, ultimately leading to clear recommendations for the different stakeholders involved. If you have been involved in university-industry relationships in the past and are willing to share your experiences and opinion how to improve the interaction in the future, please contact us.

Partner Search from Norway for Romania Norway Funding Programme

The Young Entrepreneurs Association from Romania YEAR, is the only employer NGO in Romania that represents at national level the interests of young entrepreneurs. YEAR aims to support, defend, promote and represent the professional, economic and social interests of young entrepreneurs in Romania, by supporting, defending, promoting their investments, the business entity (company, family business) they established.

Our organization is currently implementing various projects aiming at providing entrepreneurial education to the Romanian youth, improving youth employability, self-employability, facilitating the transition from school to work, promoting equal opportunities in the job-market etc. Taking into consideration the above-mentioned priorities, the YEAR expresses its interest in accessing the EEA/Norway Grants, financial assistance that also covers our areas of interest entrepreneurship, employability improvement and green entrepreneurship. In this respect we are looking for Norwegian partners for YEARs projects or for the projects of our members. We are aiming at creating partnerships with:

- NGOs, other organizations, enterprises active in the area of entrepreneurship and employment services.
- Enterprises engaged within the green economy.

Contact Daniela Oancea, daniela.oancea@ptir.ro , office@ptir.ro , <http://www.ptir.ro/>

Partner Search from Norway for the Funding Programme Area Green Industry Innovation

Green Industry Innovation is one of the programme areas under the Norway Grants assistance for the financial period 2009-2014. The overall objectives of the Norwegian Financial Mechanism (Norway Grants) are to contribute to the reduction of economic and social disparities in the European Economic Area (EEA), to strengthen the bilateral relations between Norway and the Beneficiary States.

Call For Tender / Proposals / Applications / Fundings / Awards

9th call European Nanoelectronics Initiative Advisory Council (ENIAC)

ENIAC has launched the 9th call for proposals with a budget of EUR 100 million. ENIAC is the Joint Technology Initiative JTI representing the main EU stakeholders of nanoelectronics industry. It aims at strengthening the cooperation in nanoelectronics, to increase the competitiveness of EU & associated partners in this field.

This call focuses on projects dealing with technological research & development activities; in Technology Readiness Level terms this refers to levels 2-5 i.e. formulation of technology concepts, experimental proofs, validation in laboratory conditions. A valorization, deployment plan must be included in the Project Proposal. The call follows 2-stage procedure: submission of Project Outlines, Deadline 23 May & submission of Full Project Proposals, Deadline 12 September 2013.

More... http://ec.europa.eu/research/participants/portal/page/call_FP7?callIdentifier=ENIAC-20132&specificProgram=COOPERATION#wlp_call_FP7 ; http://www.eniac.eu/web/calls/ENIACJU_Call9_2013-2.php

CIP ICT Policy Support Programme, Deadline: May 14, 2013

The programme addresses obstacles that hinder further, better use of ICT based products/services/barriers for the development of high growth businesses, notably SMEs, in this field. In addition to illustrating/validating the high value of digital technologies for the economy/society, it will foster the development of EU-wide markets for innovations enabling every company in EU to benefit from the largest internal market in the world.

It covers technological, non-technological innovations that have moved beyond the final R&D phase. It does not support research activities; it may cover, when needed, technical adaptation, integration work in order to achieve the objectives.

CIP EIP Call for Supporting Public Procurement of Innovative Solutions - PPI Pilots, Deadline: May 28, 2013

The EC calls on public procurement bodies to submit high-quality proposals for collaborative, cross-border projects, on the format of "buyers' groups" of innovative solutions – PPI PILOTS - that improve the economic framework conditions for innovation, thereby contribute to smart, sustainable, inclusive growth.

The EC calls for project proposals that clearly demonstrate how public procurement bodies will act, during the project, as launchcustomers for innovative goods/services which are not yet available on a large-scale commercial basis.

The applicants will have to demonstrate that the envisaged procurement will be new to the procurer, the solutions are not yet available on a large-scale commercial basis, the solution will be relevant to procurers in other EU Member States.

More... <http://ec.europa.eu/enterprise/contracts-grants/calls-for-proposals/> ; ENTR-CIP-13-N02C00@ec.europa.eu

CIP EIP Sustainable Industry Low Carbon Scheme - SILC I – 2013, Deadline: June 13, 2013

The SILC scheme is intended as a practical, industry-based initiative at EU level which identifies, develops and deploys both technological and non-technological innovation measures. It is foreseen that the EU will co-finance up to 75% of the costs of the industry-led projects respectively.

The SILC initiative is implemented in two steps, SILC I (2011-2013) and SILC II (2014-2020). This call concerns only SILC I which aims at finding technological and non-technological innovation measures to reduce the carbon-intensity for a wider range of sectors which can be implemented in the short term (i.e. immediate to 3 year horizon) and which do not require a further demonstration programme before their industrial implementation.

CIP Call: Building and implementing strategic Roadmaps of demand-side policy measures to boost demand for industrial innovations, Deadline: 09 July 2013

This call for proposals invites applicants to develop/implement strategic roadmaps of demand-side policy measures with the objective to increase the market uptake of innovations in any market or sector. Demand-side policies are sets of public measures which could support the improvement of conditions for the uptake of innovations or which improve the articulation of demand in order to spur innovations and allow their diffusion. The roadmaps will become an integral and very visible part of the horizontal action plan for demand-side innovation.

Prize for Innovative Applications in Policy Making 2.0

Policy-making 2.0 refers to a blend of emerging, fast developing technologies that enable better, more timely, more participated decision-making. We want to reward/give visibility to the best applications, which delivered a real impact on policy-making. This prize will be given to the best policy-making 2.0 applications, that is for the best use of technology to improve the design, delivery, evaluation of Government policy. We focus on implementation that can show a real impact on policy making, either in terms of better policy or wider participation. These technologies include, but are not limited to:

- Open & big data
- Visual analytics
- Modelling & simulation (beyond general equilibrium models)
- Collaborative governance & crowdsourcing
- Serious gaming
- Opinion mining.

Condition for participating will be the real-life implementation of technology to policy issues - potential implementation cases will not be eligible. The prize is open to citizens and organisations from all over the world.

More... <http://www.crossover-project.eu/PolicyMaking20Prize.aspx>

Call: MERCOSUR IPR SME Helpdesk, Deadline: 30 April 2013

The overall objective of this call for proposals is to provide support services to assist EU SMEs to both protect, enforce their intellectual property rights in or relating to the MERCOSUR region including Chile. The applicants will have to define the target countries of their choice as set out in the call for proposals. The maximum budget allocated is 600 000 Euro.

More... http://ec.europa.eu/enterprise/newsroom/cf/itemdetail.cfm?item_id=6460

SMEs & standardization, Call for proposals for a Framework Partnership Agreement, Deadline: 29 May 2013

This Call for Proposals aims to conclude a Framework Partnership Agreement implemented by an annual operating grant to a EU organisation representing SMEs in EU standardisation activities. The objectives are to promote the participation of SMEs, their interests in the EU standardisation process, to improve SMEs' information on, and use of EU standards and to show them the benefits of using standards. The EU organisation representing SMEs in EU standardisation will:

- represent the interests of SMEs in the standardisation process at European level, - raise their awareness for standardization, - motivate them to become involved in the standardisation process.

More... [SMEs-&-standardisation---Call-for-proposals-for-a-Framework-Partnership-Agreement-&-an-operating-grant](#)

ERASMUS for Young Entrepreneurs, Deadline: 09 July 2013

This call for proposals aims to select Intermediary Organisations, active in business support, to manage the ERASMUS for Young Entrepreneurs programme locally. These organisations will recruit and assist entrepreneurs to participate in the programme by organising the exchanges abroad. These exchanges enable new or would-be entrepreneurs to work alongside experienced entrepreneurs in another EU or CIP participating country. Entrepreneurs thereby acquire new skills, enrich their experiences, broaden their network, enhances entrepreneurship, fosters internationalisation and competitiveness of potential start-ups and participating SMEs.

Lifelong Learning Programme – 2013 call for proposals, Deadline: 15 October 2013

Through the programme the EU enables people of all ages to gain experience through studies, training or learning abroad, supports co-operation between schools, universities and enterprises in different EU countries.

Besides Comenius (school education), Erasmus (higher education), Leonardo da Vinci (vocational education & training), Grundtvig (adult education), Jean Monnet (EU integration studies), the programme offers support to activities for policy co-operation, in the fields of languages, information, communication technologies, dissemination & exploitation of results. The five priorities reflect main issues at stake of the political agenda for education and training in the EU.

Policy

Social and Territorial Cohesion Smart Specialisation

Established under [Commitment](#) 24-25 the European Commission Smart Specialisation (S3) Platform aims at assisting regions and Member States to develop, implement and review regional smart specialisation strategies, helping to concentrate limited human and financial resources on the most promising areas of comparative advantage.

More... <http://s3platform.jrc.ec.europa.eu/>

Platform for the design of the innovation strategies for smart specialisation

- Providing guidance material and good practice examples
- Organising information sessions for policy makers and participating in conferences
- Providing training to policy-makers; Facilitating peer-reviews ; Supporting access to relevant data
- Participating in high quality research projects to inform strategy formation and policy making

EU Cohesion Policy is helping to weather the crisis & produce growth, says Commission 2013 Strategic Report

The European Commission has today presented an overview of how EU Structural Funds are working in Member States. The '[Strategic Report](#)' on the implementation of 2007-2013 Cohesion Policy programmes pulls together available information from Member States, up to end-2011 in most cases. With 4 more years to go until the programmes finish in 2015, investments under the European Regional Development Fund, Cohesion Fund and European Social Fund have already led to progress and improvement for many citizens.

EU energy research & Bioenergy

Finding innovative solutions to energy issues has become a major priority in the quest to increase the share of renewables to 20% of the EU's energy needs. Advanced biofuels that do not compete with food production not only help to cut emissions, reduce EU's dependency on petroleum but also provide growth, jobs. The Strategic Energy Technology Plan SET-Plan allows EU to structure, frame energy research which in turn contributes to achieving technology breakthroughs, better results. Relevant projects financed under the FP7 are in line with the objectives of the SET-Plan.

Events

Set-Plan Conference - Strategic Energy Technology Plan, 7-8 May 2013, Dublin, Ireland

The future of low carbon energy technologies & innovation will be the focus of this year's EU Strategic Energy Technology Plan (SET-Plan) Conference hosted by the Irish Presidency of the EU. The Sustainable Energy Authority of Ireland, on behalf of the Irish Government's Department of EC, Energy & Natural Resources, is hosting, in partnership with the EC the event that will hold discussions on EU progress in accelerating the development/market roll-out of energy technologies. The event will entail representation from EC & National Ministerial representatives where key messages will be conveyed concerning the future important role that energy research will play in decarbonising our societies.

8th European Conference on Innovation & Entrepreneurship ECIE 2013, September 19-20, 2013, Brussels

The conference provides an international opportunity for scientific discussion and collaboration on a broad range of relevant fertile areas associated to recent trends in innovation. Over the last years, there is a growing recognition in business environments of the key role played by innovation in the creation and success of businesses. In a dynamic environment, uncertain contexts like those we are currently experiencing, the capacity and necessary attitude for creating new firms is fundamental and the probability of success is largely determined by innovation. At the same time there is a growing recognition of the need of more sustainable innovation, combining economic, ecologic and social aspects.

13th International Conference on Knowledge Management & Technologies, September 4-6, 2013, Graz, Austria

I-KNOW is a top-tier international conference in the areas of knowledge management and knowledge computing. Since 2001, it has successfully brought together leading researchers and developers from these communities and attracted annually over 500 international attendees. The event will be an opportunity for researchers and academia to discuss the identified challenges facing the development and introduction of future knowledge systems, and to shape future research through the publication of high quality, applied and theoretical research findings.

18th International Conference on commercializing micro- & nanotechnology-COMS, 25–28 August 2013 Enschede

- brings together leaders from all over the world and relevant sectors of industry
- is about creating productive partnerships in an informal setting
- focuses primarily on entrepreneurship and marketable solutions
- will give you networking opportunity with decision makers & qualified buyers from every sector
- is a environment focused on accelerating commercialization among established/emerging micro & nano businesses.

Workshop Project Management for EU Funded Projects, 16-17 May 2013, Berlin

Strengthen your practical skills and optimise your project management tools in our tailor-made workshops:

- Match your project idea with available funding opportunities
 - Learn to use the Project Cycle Management successfully, to develop, plan & manage an EU funded project successfully
 - Know how to apply the Logical Framework Approach to your advantage; From application to evaluation.
- You are invited to bring your own project ideas and discuss them with our specialists.
