Technology Transfer and Innovation

Events in technology transfer and innovation field

Enterprise Europe Network carries out a variety of events to promote their activities to companies and organisations at regional, national or European level. The events provide you the opportunity to meet potential cooperation partners during pre-arranged face-to-face meetings, to present your business or technology offers.

Do you have technology profiles in the fields? Please contact office@ipacv.ro to support you.

September 2013

- 16 [Brokerage Event at EMO Hannover 2013 - Meet the World of Metalworking](#) Hannover (Germany)
- 19 [BMTmatch 2013 Graz](#) Graz (Austria)
- 24 [Match4Industry Business Matching Event \(TR\)](#) Kocaeli (Turkey)
- 24 [International matchmaking event at POLAGRA FOOD Fair \(food&drink sector\)](#) Poznan (Poland)

Clusters Agenda

- [French Clusters Days - Lille, France, 10-11 October 2013](#)
- [IV Balkan Conference: Days of Clusters - Sofia, Bulgaria, October 31 - November 1, 2013](#)
- [Regions as motors of new growth through smart specialisation, Brussels, Belgium, 8 November 2013](#)
- [TCI Conference High Tech & Clusters, Bern, Switzerland, 25-27 June 2014](#)

Study trip to ECOCITY, the World Summit on sustainable cities, 25-27 September 2013, Nantes, France

The Luxembourg EcoInnovation Cluste offers package, which includes entrance to ECOCITY at a reduced price.

Abalone. The building "Autonome@zero pollution" was designed with its own energy system (wind turbines, solar panels, a ground source, etc.) in order to be independent from the general energy supply in the future.

Les Machines de l'île is an unprecedented artistic project. It is a blend of the invented worlds of Jules Verne, the mechanical universe of Leonardo da Vinci, the industrial history of Nantes, on the site of the former shipyards.

Contact: Claude Feiereisen, claudfeiereisen@ecoinnovationcluster.lu

EPO Patent Information Conference 2013, 22-24 October 2013, Bologna, Italy

The strong focus on legal status and procedural information is well-timed, with hot topics such as the unitary patent and the European federated register on the horizon.

More... <http://www.epo.org/learning-events/events/conferences/pi-conference.html>

Seminar: Patent searching for advanced users, 7-10 October 2013, Vienna, Austria

Our Patent Information Advanced Seminar (EPIAS) is a four-day seminar aimed at intermediate and advanced participants as well as those who have already completed one of our beginners' seminars (EPIBS).

More... <http://www.epo.org/learning-events/events/search/searching-advanced.html>

Examination Matters 2013, Training Seminar, 19-20 November 2013, EPO in Munich

This training seminar, being held at the EPO in Munich on 19 and 20 November, gives patent professionals the chance to discuss day-to-day problems and burning issues with EPO examiners in small groups in a workshop-type atmosphere. Register soon, as spaces are limited.

More... <http://www.epo.org/learning-events/events/conferences/examination-matters.html>

Global Patent Map Reveals the Structure of Technological Progress

By mapping the way patents cite each other, network scientists have been able to study how different technologies rely on each other and how new technologies emerge. It should come as no surprise to discover that technologists are beginning to apply a similar idea to patents. Anyone who has spent a few hours navigating any patent database will know how labyrinthine and confusing they can be.

More... <http://www.technologyreview.com/view/518991/global-patent-map-reveals-the-structure-of-technological-progress/>

Software patents are too vague and abstract, says U.S. government report. Europe?

In recent years, software has become the area of innovation most likely to be exposed to patent infringement suits, according to a new [report](#) from the U.S. Government Accountability Office. The GAO reports that 20 years, software patents were about a quarter of all patents issued by the U.S. Patent & Trademark Office. By 2011, a majority of patents were software-related. At the same time, the number of patent-infringement lawsuits increased significantly (up 31 percent) in 2011, the number of defendants increased by 129 percent between 2007 and 2011.

Research

Practical Guide to EU Funding Opportunities for Research and Innovation

Research & innovation are at the heart of the EUROPE 2020 strategy. This new edition includes a full up-to-date picture of the three main sources of funding (7th Research Framework Programme, Competitiveness & Innovation Framework Programme, Structural Funds) completed with information on the European Agricultural Fund for Rural Development and on the European Fisheries Fund, and Lifelong learning programme and LIFE + in the field of the environment. It also describes the research & innovation funding opportunities offered to countries, territories beyond the European Union, in the framework of Pre-accession Assistance, within the EU Neighbourhood & Partnership Instrument. The [Practical Guide](#) allows potential beneficiaries to quickly identify exactly how they can access European funding at any stage of a project.

Horizon 2020 - Official documents

http://ec.europa.eu/research/horizon2020/index_en.cfm?pg=h2020-documents

Open access to research publications reaching 'tipping point'

The global shift towards making research findings available free of charge for readers—so-called 'open access'—was confirmed in a study funded by the EC. This new research suggests that open access is reaching the tipping point, with around 50% of scientific papers published in 2011 now available for free. This is about twice the level estimated in previous studies, explained by a refined methodology, a wider definition of open access.

The study also estimates that more than 40% of scientific peer reviewed articles published worldwide between 2004-2011 are now available online in open access form. The study looks at the EU, some neighbouring countries, as well as Brazil, Canada, Japan, USA. By making research results more accessible, open access can contribute to better/more efficient science, and to innovation in the public & private sectors.

The Participant Portal - external user group meeting - webcast with a live stream, 9 September 2013, Brussels

The Participant Portal is the unique entry point for the beneficiaries of FP7 projects, where all grant-related online exchanges can be accessed, managed. To make the system as user-friendly as possible, to prepare it for Horizon 2020, the EC seeks continuous advice from the actual users. A web forum will be used. Any interested party can post questions and comments, either directly during the meeting or afterwards.

The **video link** for the live stream will be available on the web forum on the day of the meeting. The recording of the meeting will be available shortly after the meeting at the same address. You can **check** whether your computer configuration is **compatible with the webcasting tool**: <http://scic.ec.europa.eu/streaming/systemtest.php>

The improved version of the Participant Portal for Horizon 2020 will be discussed, including mock-ups for a revised work programme and call service, the approach for completely paperless management of Horizon 2020 grants, new online functions for appointment and payment of experts and improvements to the interface for registering legal entities.

More... The **web forum**: <https://webgate.ec.europa.eu/fpfis/forums/research/participants/portal/viewforum.php?f=27>

The NETWATCH Network and database has recently been expanded

NETWATCH is the EC's information platform on transnational R&D programme collaboration. The scope will be increased to include a broader range of initiatives. It supports transnational R&D programme collaboration in EU by:

- mapping networks
- describing the scope and results of individual networks
- providing information on Joint Calls
- supporting mutual learning among transnational programme networks
- analysing the impact of programme collaboration

The NETWATCH database has been expanded. Now includes 142 ERA-NETs, 17 ERA-NET Plus, 10 Joint Programming Initiatives, five Article 185 initiatives. This allows for comprehensive analysis covering a wide range of PPPs.

Innovation and Entrepreneurship

Eurostars in Horizon 2020 committed to a 7 months time-to-grant

For small companies developing innovative technologies, time is of the essence: a one month advantage in a patent race can mean either bankruptcy or millions of euros of benefits. The short procedure leading to a contract on a grant between companies & public funding bodies is essential to the success of **Eurostars**, the only EU funding programme to be dedicated to SMEs focusing on innovative technologies.

The National Agencies managing Eurostars have committed themselves to a 7 months maximum period between the submission of an application for funding and the moment when a grant contract with public authorities is signed.

EIP Water open its marketplace for water innovators

The "European Innovation Partnership on Water" has launched its online marketplace. The service is supposed to better link demand with supply for innovative water projects. The portal can be used to highlight services and products or to identify partners for future projects. The new user has to register with a profile. A tutorial for the registration procedure is provided on Youtube.

More... <http://www.eip-water.eu/> ; <http://www.youtube.com/watch?v=jU5zJGfo1JM>

EU Regional Competitiveness Index 2013

The Regional Competitiveness Index was developed to measure the different dimensions of competitiveness at the regional level. RCI 2013 - that also comprises Croatia - reveals a strong regional dimension of competitiveness, which national level indicators cannot capture. The RCI shows the strengths, weaknesses of each of the EU NUTS2 regions. It can provide a guide to what each region should focus on, taking into account its specific situation, its development level.

EU countries with a large gap or high variation in regional competitiveness should consider to what extent these gaps are harmful for their national competitiveness and if these gaps can be reduced.

More... http://ec.europa.eu/regional_policy/information/studies/index_en.cfm#3; [EU Regional Competitiveness Index 2013](#)

Partner Search

Looking for potential partners in business, from Romania

The company's endowment is exceptional, POPECI UTILAJ GREU being one of the most modern companies of Central and East Europe in heavy machinery field. Complex machines tools, which are used for special and accurate machining of the parts, the existence of bridges with lifting force up to 300 tones and with an area of work more than 120.000 square meters were equipped with machines and equipments which lead to a special accuracy and productivity of processing and, thus, operations like the following ones can be achieved:

Cylindrical turning on parallel lathes, cylindrical turning on vertical lathes, cylindrical grinding, flat and shaped grinding, cylindrical teeth grinding, milling, flat milling on portal milling machines, rack milling, outer gear cylinder cutting, inner gear cylinder cutting by mortising, inner gear cylinder cutting with modulus disc milling machine, straight tapering gear cutting, arc-curved tapering gear cutting, drilling, deep drilling, boring, honing, coring.

Flame cutting in CNC, Plasma cutting for refracting and ferrous materials, Welding of complex structures, bending plates and profiles, thick plates rolling with cylinders, sandblasting in closed cabin, metalized coats, primer painting, dyeing, thermal stress relieving in furnace, stress relieving through vibrating.

Contact: Florin MARIN, Craiova, Romania, constantin.marin@popeci.ro, www.popeci.ro, tel: +40 755 059915

EUREKA Partner Search: A Turkish Company is looking for suppliers for raw materials which can be injected at high temperature resistance aluminium or partners who are experts in coating

Title of the project is: "Including Integrated Cover and Flame Crown, a new type of self-cleaning Covered Burner".

Romanian inventor looking for potential partners in business

Romanian inventor has developed the most modern product, an invention relates to a toothbrush with tank (reservoir for storage of toothpaste) meant for oral hygiene. The main innovative element of the invention is the gearing system to force the toothpaste from the tank. The advantage of the new innovative toothbrush is represented by the autonomy and the efficiency in oral hygiene of teeth and tang and the toothpaste economy.

Contact: Feichter Adalbert Marius, feichter_marius2005@yahoo.com, tel +40740602822

Partner Search for European project proposal

The inventor is looking for licensing agreement or commercial agreement with technical assistance. Project title is "Looking for new frontiers in the oral hygiene".

Contact: Feichter Adalbert Marius, feichter_marius2005@yahoo.com

Looking for a potential investor in patents and inventions

We are a SME with the main object of activity of research & development. We have participated in many national research projects and also have been awarded with a consistent number of national & international awards. We have won the gold & silver medal in the World Inventions exhibition Geneva 2013 for the inventions: "Portable device for real time monitoring of epileptic seizures"- gold and " Equipment for the cryopreservation of stem cells"- silver.

We have also manufactured the only tissue banks from Romania, including skin, bone, heart grafts, sperm, cornea and also equipments for the hyperthermic intra-abdominal administration of cytostatics. We are looking for investor in our patents and inventions so they can get from the current stage of prototype / small line production to commercial production.

Calls for proposals for ERC Proof of Concept Grant, ERC-2013-PoC. Deadline: 03 October 2013

The ERC Proof of concept call aims at supporting an ERC grant-holder during the predemonstration phase to prepare a "package" to be presented to venture capitalists or companies that might invest in its technology and take it through the early commercialization phase. The aim is that of conducting a proof of concept of an idea that was generated in the course of the ERC-funded project, i.e. to undertake further work to verify whether, this idea has market potential.

Innovations can be commercialised through licenses to a new/existing company, venture funded start-up, depending on the nature of the invention/idea, potential markets, the inventor's plans for future involvement in the commercialisation.

FP7 KBBE FEEDTRIALS Call 2013. Deadline: 1 October 2013

In the framework of the Knowledge Based Bio-Economy (KBBE) programme of the FP7, Activity 2.3 "Life sciences, biotechnology and biochemistry for sustainable non-food products and processes", a call for the following topic has been published: KBBE.2013.3.5-03: Two-year carcinogenicity rat feeding study with maize NK603. One collaborative small or medium scale focused research project will be funded through this call with a budget up to EUR 3 000 000 and duration of maximum 4 years. All the Western Balkan Countries which are currently associated to FP7 are eligible to apply.

FP7 ICT Call on Future Internet Public-Private-Partnership (FI-PPP). Deadline: 10 December 2013

The objective of this third phase of the FI-PPP is (i) to provide and run a stable infrastructure for the large scale trials, expand the core platform, the use case specific functionalities and their demand-driven instantiations, and (ii) to involve through open calls SMEs and web-entrepreneurs as developers of highly innovative, infrastructure based, data-rich services and applications, building on, and extending, the large scale trials and the core platform functionalities.

The third phase is an integral part of the FI-PPP and capitalises on the investments and developments of phase one and two. The third phase of the FI-PPP ensures that technological developments and trials taking place in phases one and two will evolve into seed-type activities generating actual take-up of innovative Internet services and applications.

The FI-PPP should also be an accelerator for regional smart growth. Therefore this last phase of the FI-PPP is expected to connect and establish close synergies with regional developments and policies. Indicative budget: EUR 130.000.000

High Performance Computing Infrastructure PRACE - 8th Project Call for Proposals. Deadline: 15 October 2013

The "Partnership for Advanced Computing in Europe" (PRACE), a European High performance computing research infrastructure based in Brussels, has published the 8th Call for Proposals for Project Access.

Access to the HPC systems is provided for one year, beginning March 2014.

Researchers, multi-national research groups can apply for access to the following tier-0 computers:

- CURIE, Bull Bullx cluster (GENCI@CEA, France)
- FERMI, IBM Blue Gene/Q (CINECA, Italy)
- HERMIT, Cray XE6 (GCS@HLRS, Germany)
- JUQUEEN, IBM Blue Gene/Q (GCS@Jülich, Germany)
- MareNostrum, IBM System X iDataplex (BSC, Spain)
- SuperMUC, IBM System X iDataplex GCS@LRZ, Germany

The call is addressed to large-scale projects of excellent scientific merit for which a significant European added value and major impact at international level can be anticipated.

FET-Flagship "Human Brain Project": Competitive Calls Programme. Deadline: 6 November 2013

The Human Brain Project HBP, one of the two FET Flagship projects, that were selected for funding by the EC beginning of this year, is planning a Competitive Call in order to select new consortium members who will join HBP in 2014. The call will be opened on 1 October 2013. An important goal is to integrate the so far fragmented neurosciences.

While building integrated platforms a technological base for an ICT-based brain research is supposed to be created. The HBP aims to make fundamental contributions to neuroscience, medicine, future computing technology. Knowledge about how the human brain works will be broadened, new methods for diagnosis, treatment be developed, new (super) computing techniques for brain simulation.

Flawed nuclear power plants prompt call for mass testing in Europe

The reactor pressure vessels in every European [nuclear power](#) plant should be subjected to a standardized review to check for manufacturing flaws (hydrogen-induced forging defects). The recommendation was issued by the Western European Nuclear Regulators Association (WENRA) to its members. Nuclear power plant flaws discovered in Belgium prompt call for testing of all European reactors from the WENRA.

ELENA Programme - European Local Energy Assistance

- Assist in the transition from preparing action plans to making investments (usually higher than 50 MEUR)
- Support for programmes that can be replicated in other regions or cities
- Extend the use of innovative techniques and approaches
- Current budget of the Elena facility is 15 MEUR Annually

Investment Programme

- **EE & RE in public & private buildings**, public lighting & traffic light network, photovoltaics, heating/cooling systems;
- **Efficient urban transport**, high efficiency buses, electrically powered cars, logistical improvements;
- **Local energy facilities that support EE & RE**, smart grids, infrastructure for recharging electrically powered cars, information and communications technologies, etc.

Policy

EESC position on the Industrial Policy as it has been presented by the European Commission

The opinion insists on a change of mind-set in the Member States (MS) and the EU Council. It stresses the need of coherent decision-making on a wide variety of issues, and effective governance at EU level. Only then industrial policy can become a building block of an EU Growth Initiative of which there is still little effective action.

Six Myths of Innovation Policy

Spurring economic growth needs to be at the top of the policy agenda in both the U.S. and in Europe--and that fostering innovation is one of the best ways to do it. As a result, over the last three years, the U.S. Congress has reauthorized the America COMPETES Act and the Department of Commerce has put [renewed focus](#) on innovation. The EU has made an "Innovation Union" one of seven flagship initiatives in its Europe 2020 Strategy. Unfortunately, these efforts are limited, often lack the necessary political support because both policy makers, the general public misunderstand innovation, how best to promote it. This article examines six "myths of innovation policy."

Events

17th International Conference on System Theory, Control & Computing, ICSTCC, 11-13 Oct 2013, Sinaia, Romania

The main goal of the conference is to provide a multidisciplinary forum between researchers from industry, academia to discuss state-of-the-art topics in system theory, control & computing, to present recent research results, prospects for development in this evolving area. The ICSTCC conference, is technically co-sponsored by IEEE Control Systems Society, the papers will be indexed in IEEE Xplore. Events organized in conjunction with the 17th ICSTCC Conference:

- IWSSS, International Workshop on Systems safety & security for automotive, passengers & goods protection. <http://ace.upg-ploiesti.ro/iwsss2013>
- 6th International Workshop on Social & Personal Computing for Web-Supported Learning Communities. <http://software.ucv.ro/~epopescu/spel2013>
- 3rd Workshop on Applications of Software Agents - WASA 2013, <http://perun.pmf.uns.ac.rs/events/wasa2013/>

Congress of European Emerging Regions, CoEER, 12-13 September 2013, Beja, Portugal

CoEER consolidates a network of regions which see next 2014-2020 programming period as an opportunity to economically emerge. This involves more active trade, investment promotion activities, at international level.

Given the high interest for investors/exporters to get closer in touch with economically emerging regions, the event are unique opportunities to effectively achieve that. The priority sectors are: 1) aviation & aeronautics; 2) agriculture & agro industries; 3) tourism & new rurals; 4) energy & bioenergy; 5) sustainability, environment & urban quality of life.

10th ECOCITY, the World Summit on sustainable cities, 25-27 September 2013, Nantes, France

As part of the initiative "Nantes European Green Capital 2013", ECOCITY is the place to be for all actors in the field of sustainable city development. Five main themes: key issues for sustainable cities:

- Reducing the ecological footprint: water, air, soil, waste, biodiversity;
- Addressing the energy challenges of the city: how to decarbonise, reduce consumption & manage the transition;
- Strengthening solidarity: solidarity among cities, neighbourhoods and individuals;
- Organising sustainable cities: mobility, urban development, decision-making and planning;

Seminar: Free Grundtvig In-Service Training on Fundraising, Project Design & Project Management

The course will be held in Rome 04-09 January 2014, Padova 01-06 March 2014, Tropea 14-19 April 2014 or Milan 25-30 April 2014, for 6 days. All costs can be covered with the benefit of a Grundtvig grant by your National Agency. Deadline: 16th of September 2013. By the end of seminar, each participant should be able to:

- identify a funding opportunity in the EU that should satisfy their individual needs and their organisation.
- plan their project effectively and write a good proposal using Procjet Cycle Management tools.
- manage effectively any European funded project in education using Projet Cycle Management tools.
- understand, use key elements, free web based tools on effective management of EU projects that work in practice.
- avoid mistakes in financial reporting that cost budget loss.

Seminar: Calculating the Expenditures for Revenue Generating Projects, 7-8 November 2013, Berlin

Bring examples from your work, discuss them during the workshops! Experienced experts will work together with you on:

- Future regulations for 2014-2020. What is defined as revenue, where is revenue generated and how can you assign it?
- How to estimate revenue, how to correct it if necessary, what to do when the revenue cannot be calculated in advance?
- How to monitor net-income, refund provisions. How to use forecasting models and calculation methods in practice
- When does Art. 55 apply and how to use the 5 step approach?

Delivering EU R & D & Innovation funds, programmes & projects, 7-8 November 2013, Brussels

This two-day seminar guides participants in the mechanisms that govern EU-funded research & innovation. It reviews the changes from the current budget streams to the future ones such as HORIZON 2020, explains how to present, implement research projects, improve transfer to SME. It also analyses particular issues such as: (i) the interaction with Structural Funds programming, the technical assistance from JASPERS for deciding on major R&D projects; (ii) the State Aid issues related to research. It compares different experiences from Members States at national/regional & local levels.
