Romanian IRC 4D

The Chamber of Commerce
and Industry of Romania

Dear colleagues,

We are pleased to inform you that Romanian IRC 4D organizes:

Brokerage event "Technology Transfer and Innovation on benefit of SMEs"

4 – 5 October, Bucharest, Romania, during the Research Fair, INVENTIKA and TIB International Fair

We kindly invite you to submit and present your **Technology Offers** and **Technology Request**.

The brokerage event has the support of Romanian Agency for Scientific Research, Chamber of Commerce of Romania, EIFN: Energy Sector Innovation-Financial Network, ARoTT Romanian Association for Technology Transfer and Innovation, ARIES – Romanian Association of Electronic and Software Industry, ROCA Network.

Main topics of the Workshop:

- Environment and Renewable Energy
- Security and Defence
- ICT
- Nano & Microtechnology
- Agrofood and Fish technology
- Medical and Biotechnology
- Materials and Aerospace
- Textiles

The event is an array of Romanians Universities, R&D units, companies interested in technologies and meeting with potential European partners with whom they could exchange information on state-of-the-art technologies and solutions available on markets, and seek companies for future cooperation.

The **Brokerage event** functions as an "interface between research and the private sector" allowing new technologies, processes, patents and licenses to be offered and experience in financing, production, marketing and distribution to be requested, thus bringing compatible partners together.

The **Brokerage event** is the ideal environment for:

- Enterprises, scientists, research institutes, start-ups, investors offering and/or using innovative technologies
- Enterprises that are looking for expertise and know-how in the areas of production, marketing and distribution or wish to provide this knowledge to others.

Participants of the Brokerage event have a chance to:

- Establish valuable contacts with Romanian companies active in the field.
- Meet potential partners and clients during the event.
- Identify partners for European research projects.

More information:

- Person in charge: Gabriel Vladut, Cornelia Popa, Mihai Soare, Romanian IRC 4D
